Parent Teacher Interviews Year 7 - 12

With Parent Teacher Student Interviews fast approaching for the whole College, it is important for those parents whose children have made the transition from primary to secondary school to know what changes to procedure occur. There are only one or two, but they are very different to what you have experienced previously.

Over the Easter break you will receive an Interim Report giving you a brief snapshot of the progress from Term 1. These reports will give you a general idea of how well your child is doing at school, covering aspects of progress, application and homework. As secondary school students, your child spends time in class with a wide variety of teachers and each one contributes to these reports. Due to this, the interview process is very different to what occurred in primary school.

Parent Teacher Student Interviews are held over one afternoon from 3.30pm to 7.30pm in a central location, usually in Yellow Block. You are able to book a 10 minute block of time with each teacher you want to meet within the Parent Portal. You will need to login and book these times quickly as the slots do fill up fast. If this is the first time that you are using the portal please make sure that if you change the password you change it to something you remember. Once the password is changed the College is unable to retrieve that information. We are able to help you with your login but not your passwords. If you happen to have a teacher for more than one subject you are welcome to book two blocks of time for a longer chat, but this is not essential if you don’t feel the need. Please encourage your son and/or daughter to attend these meetings with you as it can be a great boost for your child to hear the praise and acknowledgment from the teacher first hand.

The interviews are held with up to 3 other teachers in the room all talking to other parents at the same time. This can be daunting and you may feel that you don’t get enough information within this time. If you feel that you need a longer or more confidential interview please contact the teacher personally to arrange this through the College Office. Our staff our concerned about the progress and well-being of their students and will make time to have these conversations with you readily.

Parent Teacher Student Interviews are a fabulous opportunity to get involved in your child’s education. This evening is also a great opportunity to mingle with other parents on the veranda of Yellow block. Please, book an appointment using Parent Portal, come along with your child and enjoy what the Middles Years Staff of the College have to offer.
